Our Policy applies to all websites and online services of Healthbridge International, including Healthbridgebridgepoint.com (the “Website”), any other website on which this Policy is posted by Healthbridge International (any “Other Website”), any Healthbridge International mobile application (an “App”), and any electronic communications, including text messages, that are exchanged between you and Healthbridge International (“Communications”). The Website, Other Websites, the App and our Communications will be referred to in this Policy as the “Platform”. The Policy describes our use or disclosure of anonymous and Personal Data (defined below) collected on or through our Platform.

This Policy does not apply to Personal Data received or created by Healthbridge International from any of the following Healthbridge International services:

I. Privacy Policy

This Policy outlines how we may use, disclose, maintain and protect anonymous and Personal Data you may give us through your use of our Platform.

What Information Do We Receive and How Do We Use It?

Anonymous Information; Log Files

Anonymous information refers to information that cannot be tied to a specific individual. This information includes internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, operating system, date/time stamp, and click stream data. All anonymous information we collect through our Platform is collected when your device accesses our Platform. When you surf the Internet, your web browser automatically transmits information about your preferences to our server every time you visit our Platform, including your IP address. An IP address is a number that is assigned to your device when you access the Internet. Please note that although such information is not always personally identifiable, it is sometimes possible to determine a visitor's Internet Service Provider and the geographic location of his or her point of connectivity from an IP address. We may combine your IP address with other personally identifiable

data held by third parties in order to send advertisements or other materials to you based on your preferences, interests, and attributes as described below.

The anonymous information we collect through your usage of our Platform is used in aggregate form to help us monitor audience size, measure traffic patterns and identify popular services and information within our Platform. We use this information to improve our services to you and to develop improved services based on user interests, behavior and demographics.

Anonymous Information; Web Beacons and Cookies

In addition, we may also collect anonymous information through the use of “Web Beacons” and “Cookies”.

A “Web Beacon” is a small transparent image placed on a website that may track visits to a particular page. We and some of our third-party service providers use web beacons to collect information to support our reporting software.

A “Cookie” is a small text file that contains a unique identification number that is sent from our server and stored on your device’s storage through your web browser when you visit our Platform for the first time. We use cookies to recognize your device whenever you visit our Platform through the unique identification number assigned to the cookie; this information is stored to help facilitate your use of our websites the next time you visit. We use two types of cookies:

First-party cookies – Healthbridge International uses first-party cookies to verify users when they log into their account within the Platform.

Third-party cookies – Our Platform Uses third-party cookies from service providers such as Google Analytics for the following purposes:

- to record the time of your first visit to the Platform, the time of your most recent visit to the Platform, and the time of your current visit;
- to record which page(s) you visit on the Platform;
- to record how long you stayed on the Platform; and
- to record how you located our Platform (i.e., Google search, keyword, link from other page etc.).

We only share the information obtained through the use of Google Analytics with Google. For more information on Google's use of your information, please see Types of Cookies Used by Google.

The cookies Healthbridge International uses for these purposes do not track your Internet usage after leaving our Platform and do not store your personal information.

If you wish to find out how to prevent your browser or device from accepting new cookies or web beacons, how to disable cookies or web beacons altogether and how to

monitor when you receive a new cookie or web beacon, you may wish to check the "help" feature of your web browser or visit All About Cookies. You may adjust your browser to prompt you before it allows a website to place a cookie on your device, or to exclude cookies altogether. Please note that refusing or disabling cookies from our Platform may prevent you from accessing certain parts of our Platform.

Personal Data

Personal Data refers to both “personally identifiable information” and “Fitness and Wellness Data”. In many cases, we ask for this information to provide the personalized service you wish to use. The amount of Personal Data that we know about you is entirely up to you to decide. We will only know Personal Data about you if you choose to share this information about yourself; however, some services may not be available unless we obtain a certain amount of Personal Data from you.

Personally identifiable information refers to information that can be used to identify you, such as your name, address, age, phone number, etc. We collect personally identifiable information when you voluntarily provide it, such as when you request a newsletter that we produce, indicate that you would like to receive certain targeted information on topics that interest you, or use our social media pages.

Fitness and Wellness Data refers to information related to your lifestyle including but not limited to height, weight, heart rate, blood pressure, sleep data, blood sugar, diet and/or dietary restrictions, and activity. We collect Fitness and Wellness Data only when (1) you input it within our Platform or (2) you enable us to access third-party services which have access to your Fitness and Wellness Data. We collect Fitness and Wellness Data when you voluntarily provide it within the Platform (i.e., allowing access to Apple Health or Google Fit on our mobile applications) or when you provide it in response to a request from your health care provider. Healthbridge International is not obligated and does not guarantee that Healthbridge International will monitor or respond to Fitness and Wellness Data that is voluntarily provided.

We are committed to protecting children’s privacy on the Internet and we do not knowingly collect Personal Data from children under 18 through the Platform.

When Do We Combine Anonymous Information and Personal Data and How Do We Use it?

If you provide Personal Data on our Platform, we may combine that information with our anonymous information collected from our Platform or anonymous information from third parties to form a view on what we think you may want or need, or what may be of interest to you. This is how we decide which products, services and offers may be relevant for you.

You will receive marketing communications from Healthbridge International directly or through Google's advertisement banners if you have requested information from us or received services from us and, in each case, you have not opted out of receiving that marketing by emailing us at info@Healthbridgepoint.com. If you have told us you do not want to receive information about Healthbridge International services, it may take 3-5 days to process your request. After that time, you should not receive any more information about Healthbridge International services from us or Google, but you may receive other advertisements for miscellaneous products and services from Google. For more information on Google's use of your information, please see [Types of Cookies Used by Google](#).

[When Do We Disclose or Provide Information to Third Parties?](#)

We may share anonymous or Personal Data with our third-party service providers in order for them to perform their services for us. We will not disclose your Personal Data to any other unaffiliated third party unless we have your permission or when we need to treat the information collected through this website as an asset in the event of the merger or sale of Healthbridge International, or a portion of our business. We may disclose any anonymous or Personal Data to the extent we believe the disclosure to be required by law. We may also disclose anonymous or Personal Data when we have reason to believe that disclosing this information is necessary to identify, contact or bring legal action against a third party who may be violating our terms and conditions governing the use of our Platform, or who may be (intentionally or unintentionally) causing injury to or interference with your or our rights or property or those of a third party.

[What Security Measures Do We Use?](#)

Healthbridge International has taken reasonable steps and has employed industry-standard practices and technology to ensure the integrity and confidentiality of Personal Data; but because even the most secure devices or networks can be violated, Healthbridge International cannot guarantee security.

Once you print, download, or save to file any portion of your medical record or personal information from our Platform, Healthbridge International is no longer able to protect that information from further uses and/or disclosures and is not liable for any further uses and/or disclosures of that information. You understand and agree that you are responsible for all further actions or omissions related to the security and privacy of that information.

IMPORTANT: Please keep in mind that whenever you voluntarily disclose information about yourself in the public domain, for example, through bulletin boards, chat rooms, e-mails, it is likely to be collected and used by third parties. These third parties may use your information to contact you or for unauthorized purposes. Also, please remember that no one can guarantee the absolute security of information transmitted electronically.

This Policy does not apply to such third-party services and any data you provide to third-party services, you provide at your own risk. We encourage you to review the privacy policies of any third-party services that you interact with.

If you provide us with your mobile phone number, we may send you text messages. Please do not respond to these messages or initiate messages to Healthbridge International with health information specifically about you that is Protected Health Information. The only way to end text messages for a specific texting program is to reply STOP. You may also call Call 201-701-1062 or email info@HealthbridgeInternational.com for help. Text messages may be sent to your mobile number using an automatic dialing system. Text messaging may not be available from all carriers. Carriers are not liable for delayed and undelivered messages. Message and data rates may apply to all text messages, whether delivered, delayed or undelivered.

After you send "STOP" to us, we may send you a message to make sure that you no longer want to get text messages from that program. After this, you will no longer get text messages from us from that texting program. If you want to join again, just sign up as you did the first time and we will start sending text messages to you for the programs you have signed up for.

We do not guarantee the successful delivery of text messages by your wireless provider.

We will not be liable for losses or damages that come from (i) a message not delivered or delivered late, or (ii) a message that goes to the wrong number; or (iii) inaccurate or incomplete content in a text message. We are not liable for your use or reliance on the content of any text message.

You agree that the Platform is a communication service offered only as a convenience tool to Healthbridge International. You understand that messages will be routed to the appropriate department as necessary for handling and therefore Healthbridge International employees, agents and contractors, other than your healthcare provider, may be involved in addressing your request. You understand that you may receive messages, test results, and other communications delivered via the Platform.

How Will We Resolve Our Disputes (Informally)?

We hope we never have a dispute, but if we do, you and we agree to try for 60 days to resolve it informally. If you have a dispute, send a Notice of Dispute by U.S. Mail to:

Healthbridge International
708 US-46 #140
Kenvil, NJ 07847
Attn: Legal Services

Tell us your name, address, how to contact you, what the problem is, and what you want. We'll do the same if we have a dispute with you. After 60 days, you or we may start an arbitration if the dispute is unresolved.

How Will We Resolve Our Disputes (If Not By Agreement)?

For purposes of this section:

- “We,” “our,” and “us” includes Healthbridge International and all our affiliates,
- “You”, “your,” and “yours” includes yourself and any person who may assert a legal claim on your behalf, such as a spouse or family member under applicable law.
- “Disputes” is defined as broadly as possible. It includes any claim or controversy between you and us concerning this website, your Healthbridge International account, or this Policy, under any legal theory including contract, warranty, tort, statute, or regulation.

- “Disputes” also includes any claims or controversies as to the scope or effect of this Policy.
- However, “Disputes” does not include claims or controversies: relating to the enforcement or validity of your or our or our licensors’ intellectual property rights or that can be fully satisfied in small claims court
- You and we agree to arbitrate all Disputes on an individual (non-class) basis. Arbitration means the case will be decided by a private arbitrator. The arbitrator will apply the Federal Arbitration Act (“FAA”)([linked here](#)).

There will be no judge and no jury. The arbitrator’s decision will be final except for a limited right of appeal under the FAA.

The arbitrator will be the American Arbitration Association (“AAA”)([linked here](#)). AAA will apply its Consumer Arbitration Rules ([linked here](#)). To start an arbitration, fill out this Demand for Arbitration Consumer Arbitration Rules ([linked here](#)) and mail a copy to AAA and us. In a dispute involving \$25,000 or less, any hearing will be telephonic unless the arbitrator finds good cause to hold an in-person hearing instead. Any in-person hearing will take place in your county of residence or our principal place of business – Orange County, Florida, if your dispute is with Healthbridge International. You choose.

However, should AAA be unable or unwilling to arbitrate the case, a court may appoint an arbitrator under Section 5 of the FAA.

The arbitrator will hear the arbitration on an individual basis. There will be no class arbitrations, no class actions, no joinder of arbitrations (without our agreement), no private attorney general actions, and no actions where one party represents other, absent parties. The arbitrator may award the same damages to you individually as a court could. The arbitrator may award declaratory or injunctive relief only to you individually to satisfy your individual claim.

[What is the Governing Law?](#)

You expressly agree that the substantive laws of the State of Florida will apply in connection with any such dispute including any claim involving Healthbridge International or its affiliates, subsidiaries, employees, contractors, officers, directors, telecommunication providers, and content providers. The FAA will govern any arbitration.

[Where Will Disputes Be Resolved?](#)

You and we agree to be subject to jurisdiction in the State of Florida. Any small claims matters may be brought only in your county of residence or Orange County, Florida, at the plaintiff’s election. Any claims related to IP matters may be brought only in your county of residence or Orange County, Florida, at the plaintiff’s election. Any action

needed to compel enforcement of this Platform Policy, including the requirement to submit Disputes to individual (non-class) arbitration, shall be brought in Orange County, Florida or your county of residence, at the election of the party seeking enforcement.
